

LØWE

DJ, Producer & Music Selector
(#deeperthanyou / Vienna)

Attitude:

Music has a great influence on my life and personality. I can't imagine a single day without listening to my favourite stuff or discovering new tracks especially in the deep and electronic genre. Today when it seems impossible to escape from the shitty commercial stuff I find it to be even more important to share some unconventional high quality music.

The kind of music I present in my mixes touches my soul. Successfully sharing this kind of emotion with my audience on the dance floor is a great experience and appreciation of my work as DJ, producer and music selector.
